

Pacraft TT-8D-N

PRE-MADE POUCH FILLER AND SEALER

The Pacraft (formerly Toyo Jidoki) TT-8D-N is a simplex pre-made pouch filler and sealer designed for exceptional flexibility and performance across a wide range of pouch formats and product types. Ideal for applications in frozen foods, seafood, snacks, rice, grains, noodles, pet foods, powders, and granular products, the TT-8D-N delivers reliable and efficient operation tailored to diverse industry needs.

This system supports various pouch styles, including flat, stand-up, and press-to-close formats, and features one heat seal and one cooling station for effective sealing. Its wash-down design ensures easy cleaning and sanitary operation, while intuitive touch screen controls simplify maintenance and daily use.

- Key accessories and features include:
- Product feeding hopper
- Product discharge conveyor
- Pouch opening follow-up guide
- Product counter
- Heater disconnection alarm
- Pouch opening detection device
- Fully enclosed frame and protective guarding for enhanced safety

With its robust construction and user-friendly interface, the TT-8D-N is engineered to perform at an optimal level, meeting the unique requirements of each customer.

FEATURES AND BENEFITS

- Widely flexible for various pouch formats and product types
- Designed for safe and sanitary operation
- Easy cleaning, wash down design
- Simple, intuitive operation and maintenance using touch screen controls
- Optional zipper opening, nitrogen gas flush, liquid filling systems and other features
